"The woods and the hills are a part of God's handiwork.--  
From this play you may, in some measure feel their influence--  
My play is the story of a man who took the trail that leads to  
the lower ground, and a woman, and how she found her way to  
the higher sunlit fields."--Harold Belle Wright.

### NEW WRINKLE IN FOOTBALL

"Multiple Kick" the Latest Sensation  
and Was Developed This Season,  
by Rutgers College Coach.

(By Associated Press.)

New York, Nov. 1.—Every football season brings some new play or series of plays to the fore, and although the present one is scarcely half completed, several novel gridiron wrinkles have already made their appearance. The innovation to attract the greatest amount of attention, in the East at least, is what is known as the "multiple kick," perfected by Foster Sanford, coach of the Rutgers College eleven. Strange to say it is not a series of kicks, as its appellation would appear to indicate, but a single place kick in which several players assist in the holding of the ball while another supplies the propelling power.

It is a development of the old try for a field goal from placement, in which the quarterback, after receiving the ball from the center, dropped to one knee and held the spheroid while the fullback or some other player tried to convert the drive into a field goal. Under the new method two players stretch themselves at full length upon the ground, heads opposite each other and at right angles to the direction of the kick, at a point about five yards back of the scrimmage line. Directly behind them stands the quarterback, while behind him is located the player who is to make the kick.

When the center passes the ball it is received by the quarter, who stoops and places it in an upright position upon the ground, while the players already prone, reach out and hold it steady with one or both hands. Having accomplished his part in the play, the quarter jumps quickly to one side and the actual kicker steps or runs forward and drives the ball into the opponent's territory for a field goal or a punt.

The particular advantage of the "multiple kick" over the ordinarily attempted punt, or drop kick, lies in the

fact that the ball is held securely until the full momentum of the drive has been communicated to the inflated pigskin. Owing to the spheroid shape of the intercollegiate football it is hard to drive it forward straight and true unless it is kicked at just the correct point. With two men holding it on opposite sides there is little chance for the ball to twist as it is kicked and the Rutgers players have frequently driven the ball for sixty and seventy yards from this formation. The play, however, requires perfect co-operation by all four players involved and must be timed exactly, since the defense given the kicker is naturally weakened owing to the number of players handling the ball.

### LONG AUTO RUN.

Meridian Highway Association Arranging Trip Winnipeg to Galveston.

A non-stop run from Winnipeg, Canada, to Galveston is being arranged by the officials of the Meridian Highway Association, to start from Winnipeg November 1st. Mr. O. S. Johnson, chairman of the highways committee of the Commercial Association, has the matter in hand for Brazos county and announcement of the run through this county will be made in a few days. It is intended to make the entire run without a single stop, and at county lines, where messengers are changed, it is proposed to make the exchange "on the run." The message will be greetings from the mayor of Winnipeg to the mayor of Galveston. The run will be made at night as well as during the day and it is hoped by the Meridian Highway officials that the entire run can be made in sixty hours. When a messenger car reaches a county line, the messenger for that county is present, pointed toward Galveston and moving slowly. The oncoming car slows down and draws up beside the new messenger and the Winnipeg mayor's message is passed from one car to the other while both are in motion and the new messenger speeds up with all possible haste to the next county line, where another transfer is made in like manner. Thus the trip is continued to its destination at Galveston.

### NEW WAY OF MAN- NING ENGLISH SHIPS

Vessels Leaving New York, Are  
Manned by Englishmen Who  
Have Served in War.

(By Associated Press)

New York, Nov. 1.—British merchant ships entering and leaving the port of New York are being manned almost entirely by Englishmen who have already served in the war and have been honorably discharged, according to the ship visiting report of the American Seamen's Friend Society. This report, which was made public today by Dr. George Sidney Webster, secretary, shows that in four months the ship visiting staff of the society was in personal touch with practically 12,000 sailors attached to 81 different ships representing twelve steamship lines.

Although a very large number of the sailors in port are English subjects, there are also a great many from other lands. These men, according to the report, are largely either deserters from military service or are avoiding service by coming to this country. Many of these men are Greeks, who contract for return voyage to British ports and desert their ship on this side without pay. This, according to Dr. Webster, is one reason for the noticeable shortage in the supply of seamen which many ships have suffered when preparing for the return trip.

### GOOD PEANUT YIELD IN BRAZOS.

Mr. M. G. Buchanan of the Harvey community reported to County Agent Beason yesterday a peanut yield as follows: For each 15 feet square an average yield of 11 pounds, which makes nearly 75 bushels per acre. Counting a bale of hay at 50 cents and a bale for each bushel, this makes nearly \$110 per acre for peanuts.

### NOTICE.

There will be a meeting of the Pythian Sisters Thursday afternoon promptly at 3:30 o'clock at K. of P. Hall. Mrs. W. S. Wilson, Jr., M. E. C.

### ORDER OF ELECTION.

At a regular meeting of the City Council of the City of Bryan, held on the 8th day of September, A. D. 1916, Alderman Tyler Haswell offered the following resolution ordering an election for the improvement of the sewer system of the City of Bryan, and which was duly seconded by Alderman J. S. Doane, and being put to a vote of the City Council, J. S. Doane, B. U. Sims, Tyler Haswell, John C. Vick and W. S. Wilson, Jr., here voting for said order and no votes being cast against same, and which resolution or order was duly carried, is as follows:

Whereas, the City Council of the City of Bryan deems it advisable to issue bonds of said city for the purpose hereinafter mentioned:

Therefore, it is hereby ordered by the City Council of said City of Bryan that an election be held on the first Tuesday in November, A. D. 1916, same being the 7th day of November, A. D. 1916, at which election the following proposition is to be submitted:

Shall the City Council of the City of Bryan be authorized to issue bonds of said City in the sum of Eight Thousand Dollars (\$8,000.00), payable in forty (40) years after date with the option of redeeming same at any time after twenty (20) years from date, bearing interest at the rate of five per cent (5 per cent) per annum. Interest payable semi-annually, and to levy a tax sufficient to pay the interest on said bonds and create a sinking fund to redeem them at maturity, for the purpose of improving the sewer system of said city?

Said election shall be held at the City Hall of the City of Bryan, Brazos County, Texas, and the following persons are hereby appointed managers of said election:

C. E. Jones, Presiding Judge; Mat Vitopl, Assistant Judge; Wilson Bradley and Elmer Dodson, Clerks.

Said election shall be held under the provisions of Charter 149, Acts of the 26th Legislature, Laws of 1899, and under such other election laws of the State of Texas that are in force governing the same, and only qualified voters who are property tax payers of said city shall be allowed to vote, and all voters desiring to support the proposition to issue bonds shall have printed on their ballots the words: "For the Issuance of Sewer Improvement Bonds," and those opposing shall have printed on their ballots the words: "Against the Issuance of Sewer Improvement Bonds." Such election shall be governed by the laws of the State regulating General Elections.

A copy of this order, signed by the Mayor of the City of Bryan, shall serve as a proper notice of said election, and the Mayor is directed to cause Notice of the Election to be posted up at the place designated for holding said election, and at three public places in the City of Bryan, and by publication of said notice for at least thirty (30) days prior to said date of election.

Approved September 8th, 1916.  
(Seal) W. W. HARRIS,  
Mayor of the City of Bryan, Texas.

Attest:  
R. T. SMITH,  
Secretary of City of Bryan.

OUR MOTTO  
**NU-TON-NIK IN EVERY HOME**

Here is Our  
**NU-TON-NIK**

You Are The Judge

We Are Ready  
For Your VERDICT

**MR. CHAS. W. UNDERWOOD, OF CROWLEY, LA., ON AUGUST 1st, 1916, GIVES HIS VERDICT.**  
I wish to add my testimonial to the merits of your Nu-Ton-Nik, as I believe it is the best family medicine on the market today. I have been a sufferer from Acute Stomach troubles for years. Leading physicians of this city pronounced my case incurable. My legs from the knees down were as purple as could be. The end of my fingers were raw. It was impossible for me to eat even the lightest diet. In fact I was taken from the doctor's office to my home in an automobile. This physician (one of the leading physicians of Crowley) told me nothing could be done in my case. I was persuaded to try Nu-Ton-Nik, and I herein state that I am a well man. Can eat anything I choose with no bad results, and have gained rapidly in flesh. I am a resident of Crowley, and am known, I presume, to 90 per cent of the citizens of Crowley, and anyone is welcome to write to me at any time as to the relative value of Nu-Ton-Nik. I will also state, that a great number of homes in Crowley would not be without Nu-Ton-Nik in their homes.  
I feel that if my testimony will be the means of any sufferer using Nu-Ton-Nik, that I have been well paid for this testimonial. I most heartily recommend it, not alone for stomach troubles, but as an all-round family medicine.  
(Mr. Underwood is well and favorably known in Crowley, and is the inventor and patentee of a cylinder head for gas engines. No doubt all automobiles will soon be equipped to keep spark plugs from corroding).  
We want you, if you are a sufferer, to give our product a trial. If you are not satisfied with results, GO GET YOUR MONEY BACK. Ask your druggist or merchant for Nu-Ton-Nik. Sent prepaid on the receipt of the price, \$1.00 per bottle. Address Nature's Product Company, Shreveport, La. Sold by  
**M. H. JAMES**
